On Saturday, Lisa and her friends wanted a fun **activity** to do together. They decided to **visit** a **popular spot** in town. It was a new skate park where many people like to **hang out**. Before they left, Lisa wanted to **surf the net** to find out more about the place. She found that it was nice to be **outdoors** and have some fun.

Lisa called her friends to **chat** about what they needed to bring. Everyone agreed to **choose** the best **skating gear** for the day. Some of them were not very good at skating yet, but that was okay. It was all about having fun and being a little **crazy** together.

When they arrived at the skate park, it was already busy. Many kids and families were there, enjoying the sunshine and watching others skate. Lisa felt a little nervous but excited. Her friend Emma was there to help her and teach her some tricks.

They spent hours trying new tricks and laughing each time they fell. "I can't believe we did it!" Lisa exclaimed. They took breaks in between to **chat** and eat snacks. The skate park was indeed a great **spot** to spend their weekend.

As the sun began to set, they packed their things and said goodbye to their new friends they met that day. While heading home, Lisa thought about the next weekend. Maybe they would **choose** another **activity** or **hang out** at another **popular** place. It was always nice to try something new and exciting with friends.
